

The Penguin Project

Empowering children with special needs through theatre.

What is The Penguin Project?

The Penguin Project was created by Dr. Andrew Morgan and provides children with special needs an opportunity to develop creative skills, partner and network with others, and participate in a fully realized musical production.

The Artists, who are children with special needs, will take the stage to perform a modified version of *Annie Jr.* Rather than auditions, a screening process based on interest, general abilities, and communication skills will be used to select the cast. All Artists will sing, dance, and act in the show. The Artists will get on-stage assistance from their Mentor.

La Crosse Community Theatre, The Penguin Project Foundation, Altra Federal Credit Union, and Mayo Clinic Health Systems present *Annie Jr.* This production is sponsored Franciscan Sisters of Perpetual Adoration, Gundersen Health System, La Crosse Community Foundation, and Xcel Energy.

Bet your bottom dollar that the sun will come out TOMORROW!
